61st Security Forces Squadron

Los Angeles Air Force Base
El Segundo, CA 90245

Our law enforcement teams function similar to local police, but are responsible for Los Angeles Air Force base and its separated housing annexes. We protect against criminal activity and provide Force Protection for the thousands of civilians and military that make up our community. DAF police officers must complete clearance and background checks and attend the DAF Law Enforcement Training Center in Little Rock, AR.

Police Training

Candidates attend a DoD POST certificate course at the DAF Law Enforcement Training Center. Our GS-0083 Police Series civilians are integral to the Air Force's operational readiness and enable Security Forces to meet mission requirements. Collectively, Security Forces and Civilian Police must train and equip the force to conduct law enforcement activities in support of military department and defense agency requirements.

Police Duties

Civilian police have full powers of apprehension and detention, which entails carrying a firearm, mirandizing suspects, preserving evidence, and testifying in court as it pertains to enforcing regulations within assigned jurisdiction. The unit also supports National Security Special Events in the National Capital Region.

Officers also serve as the primary command and control function for all Integrated Defense forces. In addition, police officers act as the initial on scene commander for significant and catastrophic events (e.g. active shooter, terrorist attacks, and natural disasters).

Police Development
